Replace outdated systems –
upgrade to frogblue.
Fast. Simple. Future-proof.

MADE IN GERMANY

Get your tailored
offer now!

Authorised frogblue Partner

Stronger customer loyalty, less effort. Stay your clients' trusted problem-solver with the smart technology from frogblue.

All MOBOTIX door station models can easily be replaced with the frogTerminal.

Whether surface-mounted or flush-mounted - the frogTerminal integrates seamlessly into existing installations and offers a future-ready solution with numerous advantages:

- Sleek design with touch display
- Flexible access control for enhanced security
- User-friendly operation and convenient replacement
- Made in Germany - robust, durable, and innovative

As MOBOTIX no longer manufactures new door stations and spare parts are becoming increasingly scarce, now is the perfect time for a smart upgrade.

Feel free to get in touch - we're here to support you with planning and implementation.
